

Signs of Demon Activity In Your Life

As you read through this list, I pray the Lord give you an open mind to evaluate yourself in a place of humility, Deliverance and freedom is available to you, but you must truly want it. I did not receive deliverance until I was desperate for it. It was not until total desperation knowing I could no longer go on that I called on the name of Jesus. my hope is that it does not have to come to that point for you.

I first will start off by saying most if not all of these were things I personally experienced that Jesus has set me free from and he can and will do the same for you In Jesus name.

Attacks in your sleep – constant nightmares, sleep paralysis, waking up with marks/scratches on your body, waking up seeing shadow figures/ Demonic entities in your room, feeling as if you were woken up by being hit or punched/slapped in your sleep, perverse dreams, dreams about illicit death etc.

Unusual attraction or desire for defiled things – “Demons eat a defiled diet” If you struggle with things such as drugs, alcohol, weed, pornography, lustful thoughts, any addictions, and you cannot seem to let go of these habits. In many instances these may be symptoms of something inside of you that is causing you to desire these things. (I personally was unable to get free from addiction to drugs until after receiving deliverance)

Paranormal experiences – Supernatural activity commonly within your household, strange things moving in your home, objects moving without anyone moving or touching them, lights switching on and off without anyone touching them, hearing strange sounds and noises throughout house, Even smelling sulfur or other strange manifestations are clear evidence of Demonic activity influencing your surroundings.

Mental/ Emotional oppression – Constant anxiety, constant depression, heaviness, suicidal thoughts, resentment, unforgiveness rejection, self-destruction, chronic fear etc. (2 Timothy 1:7)

Extreme restlessness in spiritual environments - You may be able to spend hours at a time scrolling through Instagram or binge-watching Netflix or YouTube but when you enter a spiritual environment or try pray, read bible, worship etc. you feel extreme tiredness or restlessness this could be a sign of demonic activity. The enemy wants to keep you from knowing the truth, the word of God is where the truth is found, and the body of Christ or at church/around other believers is where you hear the truth and the truth sets people free! “And you will know the truth, and the truth will set you free.” The truth leads to freedom the enemy wants to keep you out of places or way from people or circumstances that you are going to hear and know the truth. (Matthew 26:40-43)

Sexual perversion – Desire for illicit sex, masturbation, a desire to commit adultery, pornography addiction or any other form of sexual perversion.

Witchcraft/occult/false religion involvement – Any form of spirituality including new age that is not rooted in Jesus Christ is a form of witchcraft and opens many demonic doors that need to be dealt with. This includes all new age astrology and horoscope readings, tarot cards, meditation, spirit guides, crystals, physic readings, etc. all of these are a form of witchcraft that opens you open to demons. Much of the younger generation has opened doors of witchcraft and participated in witchcraft without even knowing it just because it seems trendy. I believe this is a demonic agenda from Satan after all he is the father of lies and deception. What better way to deceive than to have people do witchcraft and invite demons into to their lives without knowing what they were really doing. Think about it. Satan does not care your intention he will do anything to gain control of you and your life with the goal of bringing you to hell eternally. (Acts 16:16-18)

Chronical sickness – constant sickness in your family from generation to generation, or constant sickness in yourself that no matter how many doctors you see or how often nothing seems to help, this is more than likely because the root is demonic, I have seen many instances where once a demonic root was dealt with and the demon was casted out the person was healed from sickness/ disease and or physical pain left their body immediately. (Luke 13:10-17)

Desire to hurt the Body – Thoughts and desires to self-harm, cut yourself, or hurt your body. (mark 5:2)

Compulsive behaviors – sudden surges of rage or violence or any other unusual compulsion/tendency. There may seem to be a sudden shift of behavior in someone where they have breakdowns and no longer seem themselves. For example, I have heard many instances where someone got so angry they blacked out and became violent but do not remember much of what happen afterward (this is because something else took control of them it was no longer them), Compulsiveness to self-harm. (1 Samuel 18:10-11)

Unable to tame your tongue – uncontrollable bursts of rage, not being able to stop cursing, gossiping, and blaspheming are all possible indications of demonic influence. (A friend of mine was not able to stop cussing no matter how hard she tried until she got deliverance from a demon of rage) (James 1:19-20)

Intrusive thoughts/Hearing Voices – Intrusive thoughts or voices that urge or tell you do anything contrary to the word of God. (John 13:2)

If you or anyone you know deals with or experiences any of these symptoms reach out to me on [morethanconquerors.life](https://www.morethanconquerors.life), message me at 407-580-7367, or DM me on Instagram at [morethanconquerorslife](https://www.instagram.com/morethanconquerorslife)

Deliverance is available to you through the finished work of Jesus on the cross, Do not wait to receive your freedom!
